

Moline Adriance Mower

- One-piece tubular main frame—light and strong, insures perfect alignment of shafts and mesh of gears.
- Axle and main shaft of cold rolled steel which gives greater strength and lighter draft.
- Crank shaft bearings are of solid bronze composition.

- This is the best material on the market. It lasts longest and gives best service. Specially placed roller bearings on axle reduce draft and wear.
- Pawls and ratchets insure cutting power with slightest forward move of wheels—always in view of the driver. Easily disengaged, leaving only the driving wheels in motion.
 - Gears firmly keyed to axle—least possible danger of breakage.
 - Coupling frame hinges in exact alignment with crank shaft, both vertically and horizontally. Gives ease of motion and flexibility with least possible weight on cutter bar.
 - Five-inch face wheels give the greatest amount of traction.
 - Cutting parts—extra strong—fitted to produce perfect shear at every edge.
 - Knife head guide fitted with adjustable and removable hard steel wearing plates.
 - Alignment bar brings the cutter bars into perfect line and protects the pitman.
 - Pitman rod—seasoned hickory with drop forged steel connections.
 - Bar carrying spring—places weight not necessary to hold bar down upon the wheels where it is available for power.
 - Levers all easily reached—insure safety of driver.
 - Tilting lever in easy reach of the driver and guards can be raised or lowered instantly by slight rock of finger bar.
 - Folding bar—safety and convenience in transportation insured as bar folds directly over pole.

GOLDMAN IMPLEMENT CO.

128-148 S. FIRST AVE.
